110th ANNUAL REPORT FOR THE YEAR ENDING DECEMBER 31, 1965

City Of Dover, New Hampshire, Annual Report

REPORT OF CITY MANAGER

Honorable Mayor, members of the City Council and citizens of Dover, New Hampshire:

In order that you may become better acquainted with some of the activities and achievements of your local government during the past year, it is my privilege and pleasure to present to you the Annual City Report for the year 1965.

This report is as comprehensive as space will permit. Complete records are kept at City Hall and are available to the public. It is my hope that anyone interested will feel free to examine these records at any time.

The announcement by the Judson Dunaway Charitable Trust of the donation of $500,000 to the Wentworth-Douglass Hospital expansion program, the $134,000 for the new athletic field together with the $100,000 pledged for the indoor swimming pool was received with sincere thanks by the citizens of the City of Dover. These contributions will substantially assist in Dover's continual social and economic progress.

In 1965 the decision to build a new high school was made and the dedication of all those involved merits the gratitude of the people of Dover.

In addition to the usual departmental operations which are detailed elsewhere in this report the study of several major programs continued.

The City Council appropriated $3,000 for the Housing Authority to prepare an application for further study of the downtown urban renewal project.

The preliminary engineering study of the final phase of the pollution abatement programfor the Cocheco River was completed. Orders were received from the State of New Hampshire to complete this $3,000,000 project within two years.

A $3,000 engineering study of the city's water needs was completed and steps are being taken to install a pump for one of the Pudding Hill Wells, pipe this into the system, build a covered reservoir on Garrison Hill and install several new larger distribution mains. This will allow the use of Willand Well as standby only. Willand Well is presently one of the major sources of iron in the water on the North side causing many rusty water complaints.

The Phase II, Bellamy River Pollution Abatement Project was started and will be completed in 1966.

The Children's Roomwas completed at the Library.

I wish to thank the City Council, Department Heads, Boards and Commissions and all city employes for their help and dedicated service to the City of Dover in 1965. Without their cooperation this progress would not have been possible.

All citizens of Dover extend their thanks to S. Judson Dunway and the Judson Dunaway Charitable Trustees for the substantial contributions for community enterprises. May we dedicate ourselves to using these contributions wisely both for the benefit of our community and to prove that the faith of the donors in Dover was not unfounded.

Respectfully submitted,
Donald E. Chick
City Manager

Report of City Clerk And Purchasing Agent

I herewith submit the report of the City Clerk and Purchasing Agent for the year 1965 divided into five departmental agencies, namely: Elections, Administration and Revenues, Vital Statistics and Purchasing.

ADMINISTRATION AND REVENUES

The operation of the City Clerk's Office during the year 1965 entailed the customary check of all records, issuance of a large number of certificates, recording Uniform Commercial Code Statements and all Vital Statistics.

The following is a computation and summary of money collected for licenses, permits, certificates and various legal documents.

Dog Licenses	$6124.48
Taxi Licenses	375.00
Marriage Licenses	654.00
Pinball & Amusement	85.00
Pool, Billard, & Bowling	140.00
Auditorium Rental	1638.00
U.C.C. Fees	5114.00
Discharges	82.00
Birth Certificates	430.00
Marriage Certificates	82.00
Death Certificates	392.00
Miscellaneous	99.85
Voting Certificates & Filing Fees	57.00
Total	$15,273.33

VITAL STATISTICS	1965	1964	1963
Births	600	629	609
Marriages	235	213	227
Deaths	275	288	268

REPORT OF CITY COUNCIL

During the year 1965 the City Council participated in the following legislative sessions:

1. Twenty-four Regular Meetings.
2. Seven Special Meetings.
3. Nine Public Hearings.

Total — Forty Meetings.

One of the many functions of the Council is to introduce, amend, pass or repeal ordinances and adopt resolutions. This year 93 resolutions were adopted, 16 ordinances were submitted with 14 being passed and many petitions and communications handled.

In addition to the duties listed in this report it should be mentioned that the Council gives freely of their time and effort. They are avaiable to their constituents by phone or personal contact to listen to their suggestions and complaints, they attend various meetings and public functions and serve on various Boards and Commissions.

It is hoped that this report will serve to point out the fact that your City Council is a very important part of the City Government and is comprised of hard-working, civic-minded men.

REPORT OF CITY ATTORNEY

I took the office of City Attorney on February 1, 1966. From that time I have served in the capacity of public prosecutor in the District Court, and as corporation counsel for the City of Dover. The records of the District Court will disclose the number of criminal cases which came before it, as well as those prosecuted by the City Attorney. I also represented the City in certain juvenile and welfare hearings filed before the District Court.

As corporation counsel, I attended City Council meetings and gave advisory opinions to members of the City Council, to the City Manager and the department heads when requested. The advisory opinions included interpretations of the zoning ordinance, housing ordinance, plumbing code, various other ordinances and State laws. I also attended, when requested, meetings of the Zoning Board, Joint Building Committee, Council Committee meetings of the whole, Mill Heating Board meetings, Housing Board, Board of Health, and various other Department meetings. I have examined and approved contracts with respect to the new Dover High School, the swimming pool, the mill heating plant improvements and various other contracts, Federal applications, insurance policies and bond forms.

In coordination with the Finance Department, we have begun proceedings to collect past water bills, tax bills and sewer and water bills. With respect to litigation, the following cases are still pending and scheduled for disposition during the September 1966 term of Court:

(1) Renzi v. Dover
(2) Catalfo v. Dover
(3) Viel v. Wentworth-Douglass Hospital
(4) WTSN v. Dover
(5) Dover v. Wentworth

The case of Dover v. Lord and Keenan was settled by written agreement upon resolution of the City Council.

The case of Sweeney v. Dover is presently pending and will be appealed to the Supreme Court.

On behalf of the City, I have prepared various ordinances, deeds, agreements, easements, contracts and leases when requested.

Effective as of September 14, 1966 the City has received permission to construct a swimming pool facility at Henry Law Park as a result of a petition filed with the superior Court in behalf of the city.

Report of Cemetery Dept.

The personnel at Pine Hill have had very few idle moments during the year 1965. There were 135 interments, 12 entombments for out of town cemeteries due to the snow and frost.

There was 28 lots sold ruing the year: Four single graves; 17 two-grave lots; three three-grave lots; two four-grave lots and two six-grave lots.

There were 40 foundations poured and monuments set; 54 foundations poured and grave markers set and 12 foundations for government markers poured at cost.

The asphalting of avenues had to be delayed de to the early falling of leaves, caused by the drought.

The never-ending vandals were still at work taing their toll in many places, not only costly but time-consuming.

The heavy summer and fall storms raised much havoc in Pine Hill knocking off many limbs and in turn with the limbs came monument damage. The Roberts Cemetery also had many trees uprooted and monuments tipped over.

The mowing season came early, then the drought which produced weeds overnight, making a very unattractive look at all cemeteries.

My thanks go to the Tustees of Pine Hill and City Manager Donald E. Chick, the Public Works, Water Department and the Vocational School who have given a great deal of time and help to this department.

Civil Defense

I. GENERAL:

1. Surplus vehicles acquired as follows: (a) 2½ ton Ford pick-up trucks for Public Works and Police Depts. (b) 1½ ton Chevrolet Stake Body Truck for PW Dept. (c) 5 ton International tractor truck for PW Dept. (d) 2½ ton GMC stake body truck for PW Dept. (e) 1953 Packard ambulance for the Riverside Rest Home. (f) 1½ ton Ford stake body truck for the Riverside Rest Home.
2. Surplus equipment was acquired for most City departments and the Riverside Rest Home.
3. Radios for the PW and Police and CD were purchased through the Matching Funds Program.
4. The Dover Plan for the Fiscal year '65 - '66 was approved on August 24.
5. Many Statewide Alerts were received by the local Police Dept. and the Fan-out System was utilized on these occasions by various members of the Police Dept. The averge time cycle for this was three minutes.

II. MEDICAL:

1. A Limited Disaster Test was held at the Bellamy Park with simulated cases of food poisoining. All City Public Safety Depts. participated in this test as well as the Douglass-Wentworth hospital. Overall results of this test were good.
2. A Packaged Emergency hospital was acquired for Dover nad is presently stored at the Riverside Rest Home. Proposed station for use is at the Recreation Center should the need arise.
3. A Medical Self Help Course was initiated in the Fall with 52 persons receiving certificates. The course was given by Mrs. Mary LaCroix. This course is presently being given at both the Dover High school and the St. Thomas Aquinas High School.
4. A Red Cross First Aid Course was given in June by Mr. Irving Benoit with 14 persons graduating.
5. A Basic Survival Course was given by Mrs. Virginia Legro of the State Headquarters, with 12 persons in attendance.

III. RESCUE:

1. Held training sessions at the Douglass-Wentworth hospital given by Mrs. Robert Baxter, ARC Instructor.
2. Initiated Ambulance Fund with a donation of $45.
3. The Annual Meeting was held at the home of the Rescue Chief Mr. Jack Elliott.
4. The Squad participated in the following Civic affairs; a. Peewee League football games held at Bellamy Park; b. the Limited Disaster Tests; c. the Christmas Day Parade.

IV. RAMONT:

1. Completion of the Public Alarm System Study with the Federal Signal Co. Model 3T22 versus their Thunderbolt Model Heavy Motor Driven Sirens. This was done by Mr. Henry Neal, then Planning Director.
2. Completion of Phase III Shelter Survey Program with the stockpiling of the Woodman Park School and the New England Tel. & Tel. Exchange Building.
3. Concluded Operations 'Step IV' with good results in local planning and participation. This is a first of a series of tests to improve information flow from various HQ. Levels down to local level under simulated emergency conditions.
4. The RAMONT Group held monthly meetings with reviews and inspections of RADEF Instruments.
5. The County Radiological Instructor's Course, held at the Dover Armory graduated three from Dover.
6. The annual meeting was held with a tour and class of the Pease AFB Radiological Alert building. The various types of equipment and their use was explained by S-Sgt. Perry.

V. RACES:

1. The Capt. McConnell 'control Center's Anniversary was noted with Mrs. Rose McConnell, aunt of the late Capt. Donald Chick, City Manager and Mr. Thomas Duffy, Finance Director, cousin of the late captain, participating.
2. Acquired a new 6 Meter Radio for use in the State Net. This was a Gonset G50 and proved most popular with the RACES Group.
3. The American Legion Post No. 8 presented the Control Center with a new Flag and Staff.
4. Mr. Alfred Shevenell, the Communications Officer for the City, maintained weekly meetings on Net nights.
5. The County Communications Officer Mr. Maurice Hale, established his office at our EOC.

VI. CB MOBILE:

1. Lt. Robert Dearborn, dispatcher for the N. H. State Police, gave lecture on Proper Radio Procedure.
2. The Mobile CB Radio Group, under the direction of Mr. Leonard Daum, Radio Officer and Mr. Robert Elliott, assistant Radio Officer, participated in the following civic affairs; a. Memorial Day Parade; b. Halloween Patrol, c. Christmas Day Parade.
3. The Annual Meeting was held at the home of Mr. Leonard Daum, the CB Radio Officer.

Report of District Court

A total of 1200 cases were disposed of during the year by the court representing a decrease of approximately 129 cases.

Motor Vehicle violations totaled approximately 1,000 representing a decrease of 40 cases over the previous year.

A total of $27,972.56 was collected in fines. Total amount of fines and forfeitures paid to state was $11,469.40. The City's share using the formula of the first ten dollars ($10) plus 20 per cent of remainder netted the City a revenue of $15,604.44.

Fire Department

The Fire Department responded to a greater number of calls during the year 1965 than any previous year in its long history.

The citizens of the community called on the Fire department for protection a total of 665 times throughout the year. The year's total showed an increase of 53 calls over the previous high year of 1964. 550 calls were handled by the permanent crew of 18 men working three shifts and averaging 56 hours a week. 115 times during the year the entire department, including 30 call members, were called out.

All of the equipment of the Fire department is housed in the Central fire station on Broadway, and includes three pumping engines, two of the 500 G.P.M. type and one 700 G.P.M. pump plus an 800-gallon tank truck, 500 G.P.M. trailer pump, one 85-foot ladder truck, a panel truck, and boat and trailer

New equipment for the department included a new five H.P. air compressor for the air whistle, 1200 feet of 2½ inch fire hose, two Scot emergency breathing apparatus, a new engine for the 85-foot aerial ladder truck, and various protective equipment for the firemen.

The routine inspection schedule for fire prevention was continued and schools were checked and given fire drills on a monthly basis.

Fire permits were issued for all outside burning, including incinerators, grills, fireplaces and open fires; these totaled 2,453; 169 permits were issued for the installation of new power oil - burner equipment.

Training classes for both permanent and call firemen were conducted throughout the year.

Report of Health Dept.

Donald E. Chick, City Manager
Members of the City Council

Gentlemen:

The Dover Health Department has been active in promoting sanitation in the best interest and health of the community. In this respect, emphasis has been placed on the sanitary produ ition and distribution of food in stores in Dover. The grocery stores, and eating establishments were inspected periodically during the year, and recommendations were made pertaining to sanitation and public health. It is my opinion that the overall sanitary conditions of restaurants in the city are considerably in good sanitation order. The State Board of Health was given Dover, a clean record pertaining to its eating establishments.

Special emphasis was given to the handling and distribution of milk and dairy products, because of their importance to the health of the community. Inspections were made and samples taken at all dairy famrs to learn if the bacteria contents of milk was at a minimum to comply with state regulations. Pasteurization, and ice cream plants also came into this category. The quality of milk samples taken showed that the milk was satisfactory at the state department of Food & Chemistry in Concord.

Grocery stores were inspected for correct wrapping of food, and the scales were tested for proper weight to see that the buyer was getting the correct weight of what he purchased.

The State Board of Health was very cooperative to the Dover Health Department, when it was necessary to receive Gamma Globulin for patients that needed it.

The Dover Health Department wishes to cite the cooperation of the departments of the city agencies for their help during the year. We would also like to thank the radio and the newspaper for their help in announcing and printing of vital news.

Report Board of Assessors

Under the New Hampshire state statutes, it is the duty of the assessing department to make the assessment on all real estate and also on all personal property which is subject to taxes under the New Hampshire statutes. In passing, it is well to point out that under New Hampshire statutes, all real estate is taxable unless it is specifically exempted under state statute, whereas personal property is taxable only if specifically spelled out in the state statutes.

It is also the duty of the assessing department to assess head and poll taxes and to administer the War Service Exemption which is granted to War Service Veterans under conditions which are also dictated by New Hampshire statutes.

There is maintained in the Assessor's Office, a separate card for each piece of property. Each card has a description of the property, size and location of lot and a description and sketch of the building, if any.

The City Assessor welcomes all taxpayers and will be glad to go over their assessments with them at their convenience, pointing out the detailed method of computing the assessment. If any errors in dimensions of lot, topography of land, description of dimensions of buildings are discovered, the same will be promptly adjusted.

The Assessor's report for the year ending December 31, 1965, is as follows:

ASSESSMENT:

Property Assessments	$74,438,180
Stock-in-Trade	12,983,067
Live Stock	15,400
Boats	52,280
Trailers	364,150
School Tax	403,350
Total Assessment	$88,256,427
Veteran's Exemption	1,412,520
Total Net Taxable	$86,843,907

TAX:

Real Estate and Live Stock	$2,009,109.86
Stock-in-Trade	357,036.79
Boats	1,437.91
Trailers	9,549.04
School Tax	5,695.26
Bank Stock	2,703.10
Timber Tax	249.59
Total Tax	$2,385,781.55

The 1965 assessments for tax purposes, were computed on the basis of a formula, established at the time of the last complete reappraisal by the Cole-Layer-Trumble company in 1964 and was based on replacement costs corrected by depreciation.

Building Inspector

An analysis of the building activity in the City of Dover during 1965 established the following information:

JUVENILE OFFICER Joseph McCarthy is conducting a driver training class at St. Thomas Aquinas High School. The class is taught every Tuesday. (Staff Photo by Bill Murphy)

Zoning Board Grants Variances

DOVER — The Zoning Board Adjustment granted two variances as a result of the Public Hearing held Tuesday evening. Charles D. and Dorothy N. Paris were granted a variance permitting them to operate a business, the retail sale of antiques within the confines of their home at 143 Sixth Street. Permission was also granted for the erection of a sign approximately 2 square feet in area advertising this business.

James Austin of 16 Arch Street was granted a variance to regulations relating to the use of property fronting on Fisher Street with a depth of 300 feet, 50 feet by 110 feet of which is located in an I-1 restricted Industrial Area. The variance will permit him to construct a single family dwelling which will be located in part in the I-1 District.

The Effinghams

Mrs. Martha Thurston
539-4725

LOCALS

The traffic on Route 16 was bumper to bumper last Saturday and Sunday. The mild weather and beautiful foliage, brought hundreds of motorists into New Hampshire, as the scenery was at its peak this past week end. Brother Joseph Able of New York, director of Camp Marist, was at camp Marist over the weekend, as the guests of Mr. and Mrs. Kenneth Thurston.

Mr. Harold Nelson and daughter Brenda, from North Chelmsford, Massachusetts, were at their cottage last Saturday and Sunday. They attended the Bake bean supper at the First Christian Church in Freedom on Saturday night.

It Pays To Advertise In The DEMOCRAT

MORTGAGEE'S SALE

By virtue of the power of sale contained in a certain mortgage deed given on April 13, 1961 by Philip W. Hanson and Catherine A. Hanson, both of Dover, County of Strafford and State of New Hampshire, to the Amoskeag Savings Bank, a corporation duly established by law and doing business in Manchester, County of Hillsborough and State of New Hampshire, and recorded in Volume 731, Page 112, Strafford County Records, the Amoskeag Savings Bank, the present holder of said mortgage deed, pursuant to and in execution of said power and for breach of the conditions of said mortgage deed, and for the purpose of foreclosing the same, will sell at

Public Auction

on Tuesday, October 25, 1966, at 11:00 o'clock in the forenoon, in Dover, County of Strafford and State of New Hampshire, said place of sale being on the hereinafter described premises in said Dover, the real estate described in said mortgage deed, as follows:

A certain parcel of land, with the buildings thereon, situated on the southwesterly side of Spruce Lane in said Dover, shown as Lot No. 14 on plan entitled "C. I. White, Inc., Plan of Lots on Spruce Lane—East, Dover, N. H. dated March 22, 1960, G. L. Davis & Associates," a copy of which is recorded in Strafford County Registry of Deeds, Pocket No. 7, Folder No. 3, as Plan No. 15, and bounded and described as follows, to wit:

Beginning at a steel stake in the southwesterly sideline of Spruce Lane, said steel stake being also at the junction of the easternmost corner of the herein described premises with the northernmost corner of Lot No. 13; thence S 42° 27' W by the northwesterly boundary of Lot No. 13 a distance of one hundred (100) feet to a steel stake at land of C. I. White, Inc.; thence N 47° 23' W by land of C. I. White, Inc. a distance of twenty (20) feet to a point; thence N 45° 27' W by land of C. I. White, Inc. a distance of ninety-two and nine-tenths (92.9) feet to a steel stake in the southeasterly sideline of a proposed street; thence northeasterly by the southeasterly sideline of said proposed street, on a curve to the left having a radius of one hundred (100) feet, a distance of fifty-one and two-tenths (51.2) feet to a point; thence N 42° 27' E by the southeasterly sideline of said proposed street a distance of twenty-eight and seven tenths (28.7) feet to a point; thence northeasterly and southeasterly by the southeasterly sideline of said proposed street, on a curve to the right having a radius of twenty (20) feet, a distance of thirty-one and four-tenths (31.4) feet to a steel stake in the southwesterly sideline of Spruce Lane; thence S 47° 23' E by the southwesterly sideline of Spruce Lane a distance of eighty (80) feet to the point of beginning.

Subject, however, to the protective covenants as declared by C. I. White, Inc. by its instrument dated April 13, 1960 and recorded in Strafford County Records, Book 716, Page 293.

Said premises are the same as conveyed to Philip W. Hanson and Catherine A. Hanson by deed of Tanglewood Acres, Inc., dated April 13, 1961 and recorded in Strafford County Records.

Said premises will be sold subject to all unpaid taxes, mortgages and other liens entitled to precedence over said mortgage.

Terms: Ten percent (10%) cash or certified check at the time of sale; balance within ten (10) days; deed to be delivered upon tender of balance.

Dated at Manchester, New Hampshire, this twenty-third day of September, A.D., 1966.

Dover Officer Teaches Course In Driver Training

DOVER — St. Thomas Aquinas has already begun its new Driver Education Course. Officer Joseph McCarthy, Juvenile Officer of the Dover Police Force, is conducting the class on Tuesdays after school.

There are three classes of students, who are 16 or over, on the waiting list. This course has been accredited by the State Department of Instruction, Concord.

Another new course to be given at St. Thomas Aquinas the last two weeks of October is a Course in essentials of gracious living, given by Mrs. T. Casey Moher of Durham. Mrs. Moher will coach all the girls of the school in good grooming habits, posture and manners. The course will consist of ten one-hour classes. The boys will also have a class devoted entirely to them.

In addition to the six Semi-finalists in the National Merit Qualifying Test, eleven students of St. Thomas Aquinas achieved "commended" ratings. They are Steve Urbancyzk, Michael Renaud, Michael McCarthy, Kathleen Noonan and Marilyn Prescott of Dover, Ann Marie Hogan of Exeter, James Ringer and Tim Gregoire of Somersworth, Thomas Johnston and Gerald Moody of Rye, and Eugene Harding of Portsmouth.

PTA SUPPER

The new teachers at Central School were welcomed during the PTA annual membership supper on Wednesday at 6:30 pm in the school.

Also on the agenda for the first meeting of the year was the appointment of room mothers, and discussion of the year's projects.

Mrs. Robert Hussey, chairman of the committee in charge of arrangements for the function, had requested that all members of the PTA and others interested bring a casserole.

Mrs. George Hussey was assisted by Mrs. George Birse and other volunteer workers.

The PTA executive committee meetings have been scheduled for the first Tuesday of each month, while regular meetings will be held the second Wednesday of each month.

December	9	98,650	110.00
	207	$1,480,345	$1,743.00

Total Estimate cost for the year, 1965 — $1,480,345.

Report of Planning Board

The Dover Planning Board consisted of the following citizens: Robert W. Lapointe, Chairman, Robert T. Sheldon, Vice-Chairman, Raymond R. Ouellette, Secretary, Wallace I. Akerman, Albert O. Bernard, Donald E. Chick, Arthur J. DuBois, Raymond H. Bardwell and Hugh C. Tuttle.

The staff of the Planning Board consisted of Henry Neil as Planning Director until his resignation on May 14 and Miss Carolyn Marcotte as secretary. Until the completion of the Community Renewal Program, Mr. Robert J. LaPointe was assisting the staff as Community Renewal Program Assistant Planner during the earlier part of the year.

Accomplished during the year were three major projects and numerous minor projects. The largest single major project was the accomplishment of the Community Renewal Program, which is an assessment of Dover in terms of how it may be improved. More specifically, it attempts to identify areas within our community in which some form of renewal would be beneficial and it also outlines the form and degree of renewal required. The end produce of the Community Renewal Program has provided Dover with a recommended program of improvement which the Community may elect to follow or to deviate from. If the facts within the Program can contribute to the improvement of the City, then the Program has achieved its objective.

Another major project accomplished was the completion of the Ballard Marketability Study which was supplemental to and in addition of the Community Renewal Program, attempting to show an economic analysis of the benefit to be derived from actions taken as a result of the Community Renewal Program.

The third major project resulted in substantial amendments to the Zoning Ordinance which resulted in a new zoning district for garden type apartments. This amendment was adopted by the City Council on July 14. The Planning Board had under consideration two residential subdivisions. It granted preliminary approval to the Country Club Estates Subdivision and final approval to a subdivision on an extension of Morin Streeet. The Planning Board also assisted the Seacoast Regional Plan by mailing out monthly newsletters.

Recreation Dept. Report

Skiing in the Garrison City was not as good as all snow enthusiasts could have hoped for. The weatherman's snow machine could not be directed toward the surfaces of our Garrison slopes, however, the limited skiing that was available proved enjoyable to everyone. Dover skating rinks saw good use throughout the cold season and an intramural Hockey League was in the planning stages for next year.

The Recreation Center buslted with activity throughout the Fall and Winter months. Many various programs and classes were conducted under the direction of Tony Bastianelli, Director of the Center. The basketball season was well attended as 26 teams participated in weekly competition. Leagues were being formed for the grade school children, junior high school groups, senior high school boys and the adult men's league. A new league added this year was the Industrial Basketball League. Participants in this league played on teams representing their various industries and businesses in which they worked.

Spring brought forth the annual maintenance and reconditioning work scheduled for the park crew. Settees and picnic tables were painted and made ready to decorate the parks. Playground equipment was touched up and repaired producing a bright red and white glow to our play areas.

In June Camp Kowaunkamish, Bellamy Pool, and the playgrounds opened for business. The Summer produced a well-rounded and enjoyable program for Dover youngsters. All events were well attended and participated in.

Dover's adults turned out with their families for the annual Independence Day celebration, the highlight of the afternoon was the arrival of two Sky Divers that landed on the infield at Woodman Park. The celebration ended with a glorious fireworks display observed by an estimated 14,000 people. The children climaxed the Summer activities with an outing at Canobie Lake. 350 Dover youngsters attended the final event of the Summer season.

In August Dover hosted the 1965 State Championship Softball Tournament. Thirty teams participated from throughout New Hampshire and Dover was honored by being the 1965 State Championship Softball team in the person of Weeks Awful Awfuls winning the tournament.

September and crisp Fall air brought forth Pee Wee football and soccer activities in our program. A fine season was enjoyed by those youngsters that participated in league play and also by the adults that represented Dover in the N. H. State Soccer League for men. The doors to the Recreation Center swung open once again and as Winter braced our City new and old indoor programs began. Dog Obedience School, rug braiding and girls' judo were only a few of this year's new activities. Physical Education classes were taught by Mr. Bastianelli with both the boys and the girls, in good attendance. Garrison Hill was made ready with all hopes directed toward a more prosperous skiing season. Sixty boys registered for the intramural hockey program and we await the arrival of the cold Winter months for its beginning.

This then brings us full cycle in another calendar year. Our philosophies remain unchanged and our directives toward the preparation of a better future for Dover youth and adults is constantly our goal.

Police Department

City Manager Donald Chick
and the members of the Dover City Council:

I have the honor of submitting herewith, the Annual Report of the Police Department of the City of Dover for the year 1965:

A police officer is known as a guardian of justice and order, and in order to maintain effective law enforcement, a police officer must be mentally and physically alert, dedicated to his work, and energetic in the performance of his duties. A single day's duty calls for the utmost in tact, patience and courtesy, perseverance, and often an act of bravery. A police officer is well aware that he works for the public, and that the public is entitled to the best he has to offer. A good police officer is always working and always learning. At this time, law enforcement agencies are striving to professionalize law enforcement, as they feel that training and education are most important.

In 1965, several Dover officers were given the opportunity to attend special courses in law enforcement education and techniques. Officers Repp and Dolph attended a police training school sponsored by New Hampshire State Police. Eight Dover officers were enrolled at sessions on Criminal Investigation and Case Procedure at St. Anselm's College, held one night a week for 15 weeks. In February, Officers Mikan, Sweeney, Dame and Rowe participated in the first enrollment, and in September Sgt. Mackey and Officers Turgeon, Redden and Repp completed the course. Chief Flynn and Juvenile Officer Joseph McCarthy, along with Officer James Rowe took part in several sessions on Riot Control, when sessions were held in Hampton, N. H.

During the year 1965 the Dover Police Department handled 1,571 arrests, 1,452 males and 119 females. In Juvenile Court 59 boys and 21 girls were brought in for various juvenile offenses.

The department answered a total of 13,638 calls which were investigated or assistance given. Cruiser men and men on foot beats made a total of 805,000 checks of business establishments In the year 1965, and the cruisers travelled approximately 179,637 miles, covering the city proper and the outskirts.

STATISTICS FOR THE YEAR 1965

Number of calls received and investigated	13,638
Street lights reported out to Public Service Co.	286
Doors and windows found unlocked and reported to owners	1,775
Motor vehicle cases	920
Other than motor vehicle arrests	651
Lodgers cared for	140
Animals taken care of or disposed of	222

REVENUES FOR THE YEAR 1965

Parking Meter Fines	$ 5,302.75
Revenue from Beano Licenses	410.00
Revenue from Copy Machine	688.00
Pistol Licenses	74.00
Dance Licenses	77.00
Revenue from Parking Lots	2,637.00
Bicycle Licenses	212.75
Licenses to sell firearms	4.00
Junk Licenses	60.00
Refund to supplies	30.01
Refund to equipment	647.60
Refund to Personal Services	394.03
Refund to Outside Services	276.50
Refund to communications	67.84
Refund to Parking Meters	162.20
Total Revenues 8	$11,043.68

During the year 1965 the total value of merchandise stolen by larceny, breaking and entering, robbery, shoplifting, etc. reported to this department amounted to a total of $61,959.15. The value of the merchandise recovered by the department revealed a total of $38,271.00.

Motor vehicle accidents reported to the department during the year totaled 514, with personal injuries to 236, plus injuries to 23 pedestrians, and the City of Dover had three fatalities during 1965. The youthful drivers once again were involved in the greatest number of acidents. Following is a breakdown of the ages of dripers involved in accidents for the year.

16	21	26	31	35	41	46	51	56	61	66	71 and
20	25	30	35	40	45	50	55	60	65	70	over
213	163	86	83	47	67	56	43	42	27	26	18

The Dover Police department has now equipped each foot patrol officer with a walkie-talkie radio, providing instant and immediate contact with the desk captain. The call boxes on the street have been eliminated and a call from headquarters is transmitted immediately to the officers on foot beats and on cruiser detail, thus saving a great deal of time, which is so important in any emergency.

This department initiated the first automotive safety project in the State of New Hampshire this year. Juvenile Officer Joseph McCarthy conducted the six weeks course consiting of lectures, educational films and other instructions. Approximately 500 teenagers from Dover High school, St. Thomas Aquinas High school and Newmarket High school participated. Attendance was excellent at these classes, one hour in length, and conducted after school, an indication that the young people were anxious to be better drivers and were willing to learn when given the opportunity. Officer Frank Redden, Chief Instructor for the Hunter Safety Program, conducted two sessions during the year, and approximately 70 boys completed the course. Officer Redden was assisted by several of his fellow officers.

With the resignation of the school truant officer, Juvenile Officer Joseph McCarthy was appointed to the position on a part time basis, and in keeping with his work with juveniles, it enables him to keep in close touch and determine reasons and causes for truancy.

During the past year the department has been visited by many groups including classes from the schools, service organizations, civic clubs and many groups of Boy and Girl Scouts, Campfire Girls, etc. These organizations are given a complete tour of the department, and a demonstration of some of the facilities such as finger printing, photography and scuba diving equipment. Chief Flynn and several members of the department have also addressed service organizations and clubs, and spoken at the schools during the year.

The annual meeting of the New Hampshire Police association was held in Dover in May. Representatives of departments all over the state were in attendance. Lt. Inspector George J. Hester, Jr. was president of the state organization. The affair concluded with an annual banquet in the evening, at which Governor John King and many state dignataries were present.

In October Chief Flynn attended the convention of the International Association of Chiefs of Police which was held in Miami, Florida. He also attended the annual meeting of the New England Police Chiefs of which he is second vice president, their convention being held at the Poland Springs House, at Poland Springs, Maine. The New Hampshire Chiefs of Police held their convention at Rye, and Chief Flynn was elected to the presidency of this group.

The Parking Meter department, under the jurisdiction of the Police Department, takes care of approximately 740 meters in the City of Dover. A new metered parking lot was constructed at the site of the old Belknap church, and 24 metered spaces were installed. The Sign department works on the upkeep and repairing of traffic signs, and the street signs, which are often damaged by vandalism and accidents.

Effective law enforcement is a vital part of community growth and development, and anefficent, intelligent and honest police force plays an important part in the maintenance of, respect for and obedience to the law. A police officer's job is not only to apprehend the lawbreaker, but to protect the law abiding citizen.

At this time I would like to express my appreciation to the men on the department for their cooperation and support, and I would also like to extend my thanks to all persons who have assisted the department in any way during the past year. As peace officers we do not make the laws, but it is our job to uphold them, and it is only through the support and cooperation of local government officials and an understanding public that we can effectively fulfill our duties and to meet the challenges facing law enforcement in the ever increasing demands for law and order.

Report Public Library

To The City Manager, the Board of Trustees, members of the City Council, and citizens of Dover:

The eighty-third Annual Report of the Dover Public Library is submitted:

CIRCULATION

1965 was the year of the new Children's Room for all our efforts were directed toward this long awaited goal.

Inevitable delays developed in the acceptance of the plans as presented with the, also inevitable, increase in costs and the necessity to meet these costs.

$4,305 from the Bessie I. Parker Memorial Library Trust Fund was granted by the courts to meet the new estimated costs. With this money from our dedicated first Children's Librarian, the city appropriation, a government grant, and from the Judson Dunaway Charitable Foundation, our new rooms were on their way when the C & S Construction company became the low bidder on May 27. The actual construction began in the middle of June and continued to progress in a most satisfying and exciting way until the years' end saw it nearly ready for the Jan. 10, 1966 grand opening.

The regular and valuable work with the children continued, with no interruption of service, while the new room was being constructed.

During the year 10 classes with their teachers, two Blue Bird and two Girl Scout groups, visited the library. These 240 children were given instruction in the use of the books, and were sometimes taken on a tour of the Library and told a story by Mrs. Phelps, the Children's Librarian.

There were 39 story hours with an average attendance of nine which is a sizable increase over previous years.

The 15 exhibits of books and pictures were unusually varied and colorful.

Twice during the year about 900 books for the elementary schools were selected, charged, listed and boxed, as classroom deposits.

ADULTS AND YOUNG PEOPLE

National Library Week was observed by a display of 118 books in the Fine Arts Room, on which reserves could be made. There were reserves on 68 books and the most popular had 10 requests. There was also a small exhibit of antique library tools that attracted the attention of many people. The Librarian and the Assistant Librarian recorded Library items that were broadcast over WTSN at various times during the week.

A thorough inventory was made of all the Library furnishing and working tools, including a valuable collection of paintings, several catalogues and their contents. Everyone was greatly surprised to find the estimated value of the Library in cold cash figures.

During Catholic Book Week there was a joint exhibit of books from St. Mary's Parish Library, supplemented by many of our own books of special interest to Catholics. There was more than usual interest in the books displayed this year.

217 visitors registered in our valuable Historical Room during the year. All the New England States were well represented as well as Arizona, New York, Idaho, Florida and Michigan. Each year seems to bring more questions (like these) sent to us by mail, pertaining to available historical material. From Texas comes a request for information about Nahum Bachelder, governor of New Hampshire 1903-1904 and from Florida we have a query on a Mary Smith who was said to have been loved by John Greenleaf Whittier.

Our more than 5,000 general reference questions always present a challenge and are often as unusual as these three. "How do you make a gun rack?" "Do you have pictures of the Gibson Girls?" and "How do you make maps with flour, water and salt?"

Dorothy Shirley, the Assistant Librarian, is also the Head Cataloguer and has made a most informative report of activities in her department during 1965.

An estimated 11,725 catalogue cards were made including the recataloguing of most of our old art books and a beginning on the approximately 2,000 items in our music library. 601 catalogue cards were sent to Concord for the Union List of non-fiction books available throughout the State. Each book catalogued means concentrated work on classification so that each book will be easily avaiable for use by the general public.

City Manager Donald E. Chick was given a coveted award for unusual service to the Public Library in October at an awards dinner of the N. H. Trustees association.

GIFTS

323 books and magazines, nine recordings and a total od $25 was presented to the Library during the year from interested individuals and groups.

We regret that the names of individual donors cannot be given here, but we extend our warm thanks to all of them.

Thanks are also extended to the City Manager, Board of Trustees, the City Council, news media and all who have recognized the value of the Library through their gifts of time or money.

PUBLIC WORKS

Highway Department

During the winter months of 1965 there were seven snowstorms which required the application of 1200 tons of rock salt and 900 cubic yards of sand on the streets and sidewalks within the City. The department's crews were supplemented with extra men and equipment to plow and remove the snow from the streets and sidewalks throughout the City.

STREET MAINTENANCE

Under this program, work was scheduled to be completed on 22 miles of the City's 110 miles. Out of this, the actual work was completed on 11 miles. In conjunction with the program, 1,100 tons of patch was used and once again, as it was mentioned in the 1964 report, better than 90 per cent of the time during the warm months, hoptop was used for patching with a marked improvement in the overall patching program. To support the seal coating of streets in the City, 47,000 gallons of liquid asphalt was required. This material either was used with a sand cover or to provide the required asphalt for a mix-in-place type of pavement. Gravel roads were graded throughout the year and 3,200 cubic yard of gravel was hauled and spread. In contrast to the large amount of seal coat work that was accomplished in 1964, a different method of leveling and smoothing out rough spots was used during the 1965 program. This method required the spreading of 2,000 tons of hot-top with the grader and then compacting it with the City's roller. This process was followed on Whittier Street, Washington Street, Silver Street, and Back River Road.

TOWN ROAD AID PROGRAM

Under this program the City and State funds are used to repair roads which qualify under the laws established by the State. Work under the A program was continued on the Back River Road. This is a continuing program which will eventually widen and improve the entire length of the road. In 1965 approximately 3,500 feet had work accomplished on it which included ledge excavation, slope work, widening and gravel hauled in to improve the sections.

Under the B program, Broadway was repaved from Oak Street to Florence Street, then a short section was paved from Ham Street to New York Street.

BRIDGE REPAIRS

Routine maintenance work was performed on the various bridges throughout the City and a survey was initiated with the State Bridges Department which entailed the complete inspection of all the bridges and a recommended maintenance program. A new guard rail was installed at Sawyer's. Other guard posts were installed at other locations throughout the City.

REFUSE DISPOSAL

The average refuse collections for the year were approximately 1,700 loads. This is equivalent to over 300,000 stops to pick up the rubbish. Over 860 cubic yards of sand was hauled to the refuse disposal area for cover.

STREET CLEANING

The street sweepers are in constant use from early spring until late fall. Early in the morning, the business district is swept. In addition, manual labor is used to sweep gutters, pick up papers, etc. The annual fall collection of leaves was made throughout the City.

GARAGE

The routine maintenance and repair of the City-owned equipment is a never-ending procedure which is accomplished by the garage mechanics. During the summer months due to the drought condition a concentrated effort was made on repairing two trailer tanks which were used to haul water to the Riverside Rest Home and other Dover citizens whose water supply was depleted. A new vehicle was obtained through the Civil Defense program and made ready for use for the Police department. All the quipment was maintained in a state of readiness so that programs undertaken by the City Departments could be supported by the equipment required.

NEW EQUIPMENT PURCHASED

One refuse load packer was purchased with the City trading in the old unit, and a used tractor with a front-end loader and Backhoe was purchased for use, by the Highway Department.

SEWER MAINTENANCE AND DISPOSAL

This section of the department work is continaully kept busy the year around with the entire department at times required to clean catch basins during storms and immediately after storms.

Sewer lines were checked to prevent plugging along with the rebuilding of catch basins and manholes and the renewal of sewer lines on various streets of the City. This task can be relatively simple or difficult, depending on the depth of the sewer lines, and this City has several which vary in depth from 17 to 24 feet. At the Industrial Park 1,200 feet of new sanitary sewer was constructed with the City crew. The four lift stations are checked daily to insure their proper operation. The motors, pumps, and controls were cleaned and repaired as required.

The treatment facility off the Garrison road recieved a thorough cleaning. The filter beds are continually raked and the digesting tank is attended to daily to insure proper operation, however, during this year a concentrated effort was made to improve the efficiency of this tank which had deteriorated due to the increasing load and home construction over a period of four or five years.

The main sewage treatment plant received 348,000,000 gallons of sewage during the year. The sewage is chemically treated and the solid wastes are separated and disposed of. There is a continuous cycle of maintenance work suchas painting, repair of pumps, controls, and cleaning of various tanks and lines.

Water Department

The Water Department for the year of 1965 has the following to submit.

Most of the North side of the city was plagued by rusty water or discolored water. To try to overcome this Camp, Dresser & McKee of Boston, Mass., were hired, as consulting engineers, to make a survey and study of the water system for now and he future use of water for Dover. Their report was finished and turned over to the Water Board for approval in November of 1965. Numerous improvements to the system were suggested in the report and the Water Board will probably make some plans for 1966 to try to improve the quality of water on the north side.

NEW EQUIPMENT PURCHASED

One 2½-ton Ford dump truck with Heil dump body and Frink snow plow.
One ¾-ton International pickup.
One four-inch Centrifugal pump.

IMPROVEMENTS

Six-inch main extended on Morin Street.
Six-inch main extended on Phillip Street.
Twelve-inch main from Knox Marsh Road to Industrial Park.

Cleaned main on Mt. Vernon Street from Lowell Avenue to Ash Street.

Installed new hydrants in Industrial Park, Central Avenue and one on Strafford Road and Forest Street.

Repaired hydrants on Nile Street, Forest Street, Old Rochester Road, Glenwood Avenue, Strafford Farms, New Rochester Road, Dover Point Road and numerous others.

Repaired mains on Park Street, Orchard Street, Locust Street, Charles Street, Parker Street, Ham Street, Dover Street, Dover Point Road and other small maintenance jobs on mains.

Report of Tax Collector

The collection activities for the year 1965 submitted to the City Manager, Donald E. Chick and to the members of the City Council.

The office of the Tax Collector is responsible for the collection of all Head, Poll and Property (both real and Personal) taxes. It is also responsible for the collection of water bills, timber tax, stock-in-trade and automobile excise taxes.

WATER DEPARTMENT

During the year, 1965, $272,070.59 was collected for the Water Department for Meter Rates, Maintenance, New Service and other Miscellaneous bills.

A total of $217,357.91 was committed to the Collection Office for the January, February, July and August billings plus $40,730.57 for the monthly bills to local industries.

PROPERTY TAXES

The property tax warrant in the amount of $2,382,-828.86 was committed to the Collector on August 12, 1965. This was an increase of $46,488.67 over the previous year.

Of this amount $2,089,791.58 was collected by Dec. 31 plus $299,077.89 for the previous years' taxes.

At the time of my appointment in April, there was outstanding in Stock-in-Trade, Trailer and Boat Taxes $16,238.03. This amount represented all years from 1955 to 1963.

Much of the above was balances from overassessments, bankrupts, removals, etc. After working each to a conclusion and working closely with the Assessor, abatements in the amount of $5,672.59 were granted. On December 17, 1965, another $4,773.16 was submitted for abatement — all in the same catagory as the above mentioned.

The following Personal Property Taxes still remain unpaid and are receiving close attention:

1962	$ 446.85
1963	$3217.63
	$3364.48

This then, reflects collections of $2,128.00 for this period. The abatement appears excessive but does not reflect an abuse of the privilege since many should have been aated long ago.

MOTOR VEHICLE REGISTRATIONS

During the year 1965, 13,102 Motor Vehicle Permits were issued. This was an increase of 1,033 permits and $14,147.19 over the previous year.

HEAD TAXES

On July 21, 1965 the Head Tax Warrant was submitted in the amount of $48,345 by the Assessor. On December 31, 1965 $31,970 had been collected plus $14,430 for prior years.

POLL TAXES

On the same date, the Poll Tax Warrant was submitted in the amount of $14,510. Of this amount, $9,566 had been collected on December 31, 1965 plus $4,306 for prior years.

Through close cooperation with the Assessor's and Finance Offi ies and the use of duplicate slips, a better accounting of added Head and Poll Taxes was achieved.

As many people pay their Head and Poll Taxes at the time of Motor Vehicle Registration, the collection figure is much higher by April first of the following year.

TAX SALE

There were 202 parcels of real estate on the posting list on June 15, 1965. At the time of the Tax Sale, this number was reduced to 114 parcels with a value of $31,-394.75.

HB NO. 109 PAYMENTS ON REDEMPTIONS

"Payments on redemptions of Real Estate that has gone to the Tax Sale may be made in the amount of $5 or multiples thereof. Payments so made are set up in an Escrow Account. When full redemption has been made, the Escrow Account is closed out."

A special Escrow Account for these partial payments was set up on September 12, 1965.

On December 31, 1965, the amount of Property Taxes to be redeemed for all previous years was $17,173.06. $3,438.16 still remained in the Escrow Account leaving the amount to be collected $13,734.90.

Other collection activities during the year 1965 included the mailing out of Property Tax and Head and Poll Tax bills, a close and continued follow-up on all years Tax Lien accounts — checking with banks, real estate agencies, etc. Courtesy notices, delinquent notices and letters were sent to all persons having unpaid taxes and personal calls made on a great many of them.

Also, Collector's Deeds were passed on several pieces of property for non-payment of taxes.

COLLECTIONS IN 1965

Property Tax Current	$2,089,791.58
Property Tax Prior	299,077.89
Interest	6,893.51
Head Tax Current	31,970.00

Offi ie Expense	509.73
Salaries	6849.50
	8$41,504.12

During the year 1965, 49 families received assistance. This represented 216 persons. Eighteen single persons were assisted. Ten adults and 18 minors received board and care. Three other adults required extra nursing care and 11 persons were assisted with medical only.

Wentworth-Douglass

City Hospital

It is with a feeling of gratitude to report to you that 1965 has been an excellent year for your Hospital. I believe our fiscal condition to be sound, our employe relationship to be solid, and our plans for the future to be dynamic and stimulating.

Both income and expense increased in 1965 with the end result comparable to the pattern of the last several years. Salaries were adjusted in most areas and accounted for the major increase in costs. Room rate adjustments and increased volume in the out-patient areas represented the additional income to compensate for this aded cost.

It is with great pleasure that I report to you that the Wentworth-Douglass Hospital had the lowest operating costs in the two-state area of Vermont and New Hampshire. Total income from patients during the past year was $928,269; operating expenses totaled $915,000 — resulting in a slight excess of income over expense of $13,269.

The aforementioned operating result can, in a very large degree, be attributed to the competence and teamwork of the Medical Staff, Board of Trustees, and the many Hospital Employes who work diligently together in maintaining our very high standards of patient care. A hospital is primarily people; and good people, well trained and properly placed, make a good hospital. Over the years your hospital has put great emphasis on this simple fact and has been successful in attracting to it personnel of well above-average abilities. Responsible positions, comparable pay, pleasant working conditions, and attractipe fringe benefits are the background against which we conduct our recruitment. I am of the opinion that our most important and valuable asset is that constituted of our people. As we look ahead, it will be their performance that will determine the future of this institution. I have no doubt that the challenge will be met most adequately.

Actually, the challenge of the future is already upon us. Medical care and hospitalization in these United States is now viewed as a right, rather than a privilege, by most citizens. With the advent of Medicare the impact uponour hospital is unknown at this time; however, it is safe to assume that our hospital will be taxed even beyond our present patient load, which is now approaching 100 per cent occupancy. Therefore, it is imperative that we must expand our physical plant and services.

A forward-looking Hospital Board of Trustees, supported by the Medical Staff, recognized this challenge several years ago and engaged Ritchie Associates of Boston, Mass., to prepare a master plan. This plan was prepared, and it is hoped that Phase I of the program will begin some time in 1966. The program will include a three-story addition to form a "T" placed to the South of the 1952 building. The basement level will contain a new and enlarged Pathology Department, relocation of Physical Therapy, expanded x-ray services, and a much enlarged emergency and clinic area. The first and second floors will accommodate about 50 additional medical and surgical beds and will include an "Acute Care" section. It is contemplated that allowance will also be made for a 20-bed extended care area in the present building.

During 1965 our close friend, the Women's Service Council, continued to play a major role in the Hospital's activities. Volunteer members of this fine group, including the Candy Stripers, give countless hours of varied service, contributing individual time and talents, fund-raising efforts, and plain good will and understanding. Their contribution to the program of the Hospital is incalculable.

During the past year almost $35,000 was spent to replace or add new equipment throughout the hospital. This was made possible through gifts received from the Women's Service Council, special donations, and funds from our depreciation fund established for this purpose.

My sincere appreciation is extended to the Trustees, the Medical Staff, the Hospital Personnel, the Women's Service Council, to Mr. William F. Ogden, and to our many other friends, who have the deep interest of the Hospital at heart and who are sincerely dedicated to the idea that the Hospital must give the best possible care to the people of our community.

Respectfully submitted,
Vincent J. DeNobile
Director

SCHOOL ENROLLMENT

The Dover Public Schools had an attendance of 3858 students on the first day of school in September 1965. This represents an increase of 36 over last year's figures of 3822. Of the additional 36 students, all are elementary. The secondary school showed a decrease of 15 students.

Our school enrollment figures on opening day for the past five years are as follows:

	1961	1962	1963	1964	1965
Dover High School	1026	1041	1166	1247	1232
Woodman Park School	976	1007	863	896	1001
Horne Street School	630	627	679	647	632
Sawyer School	235	216	232	246	221
Pierce School	117	111	138	136	123
Ida B. Hanson School	118	108			
Hanson Extension at City Hall	24				
Hale School		105	102	113	108
Armory		16			
Garrison School			522	537	541
	3126	3231	3702	3822	3858

The Hale School was again pressed into service, and we are again appreciative of the cooperation of Monsignor Francis Hogan of St. Joseph's Parish, for the use of the school building.

HEALTH SERVICES

The Dover School Department has a health service program comprising of two full time nurses and a half time nurse. The staff, with the cooperation of the Dover-Medical and Dover Dental societies, conducted five health appraisals to all pupils in grades one, four, seven and 10 in all public and parochial schools — 1394 students. During the past year the nurses have provided the following services:

1. A total of 5619 students were given vision tests.
2. A total of 2553 students were given hearing tests.
3. A total of 5143 students were given scalp infestation tests.
4. A total of 9944 students were weighed and measured.
5. A total of 2599 students received first aid.
6. A total of 218 students received posture evaluation.
7. A total of 1455 home contacts were made.
8. A total of 416 cases of communicative diseases were dected and one reported.

As a result of the constant health vigil maintained by our nurses, 892 pupils were seen or treated by the family physician and 144 students were treated as a result of medical examinations by the Dover Medical Society Clinics. The Dover Dental society treated 58 children as a result of examinations at the clinics.

SPECIAL EDUCATION

The Dover School Department subscribes to the philosophy of the inalienable right of every youngster, the exceptional as well as the gifted, to an education. There are two classes of special education involving educable pupils in operation at this time. These classes appear at the elementary level and have been effectively operated to the betterment of the individuals as well as the entire school system. One other such class should be added at the elementary level and one should be instituted at the secondary level in the near near future.

ADVANCED STUDY PROGRAM

More than 100 college bound Dover High School students are being prepared in a way for their future education by having them meet once a week with the University of New Hampshire professors in English and Social Studies. This is an effort to give more attention to these students who show superior ability in certain areas.

DOVER SUMMER SCHOOL

Dover's third Summer School came to a close Friday, August 13, 1965. Originally, 204 students had registered and attended classes, with a final number of 191 students completing their courses. Some students had to drop out of the program due to ilness, family problems or vacation conflicts.

Our students this year represented all of the Dover Public and Parochaial schools (161) and the cities and towns of Rochester, Somersworth, Durham, Berwick, Rollinsford, Farmington and Barrington. We had two foreign students from Greece and Nicaragua, who had recently moved to this country - taking English. The curriculum was designed to meet the needs of the children at all grade levels for enrichment as well as remedial purposes. The program included "core" subjects, such as mathematics, reading, English, French and the social sciences, supplemented by enrichment courses in creative writing, developmental reading and personal typing.

At the end of the second week of Summer School, the parents of all the elementary students received progress reports. Also at this time the parents of high school students doing sub-standard work were notified. At the close of the Summer School, progress reports were issued again and final grades for the secondary students were sent to their high schools.

The Adult Education Program, in its 19th year of operation, continues to meet the needs of the citizens of Dover. Some 14 classes with a total enrollment of 190 adults meets two hours each week for a period of 10 weeks under the supervision of Mr. George J. Kay, Business Administrator. Courses are offered in the following fields of interest:

Arts and Crafts
Bookkeeping
Conversational French
Dressmaking - Beginners
Dressmaking - Intermediate
Dressmaking - Advanced
Furniture Repair
High School Equivalency
Home Cake Decorating (2)
Personal Typing
Rugmaking - Braiding - Beginners
Rugmaking - Braiding - Advanced (2)
Rugmaking - Hooking

Two federally subsidized special adult programs Machine Design and Apprentice Carpentry are being supervised by Mr. Joseph Herlihy at the Davis Vocational School. Machine Design is a National Defense Education project and has been in operation six years.

During this period of time over $50,000 worth of equipment has been received by the Dover School Department for use during the school day as well as the evening courses.

TRANSPORTATION

Of the more than five thousand school children attending all the Dover schools, 2,441 are being transported daily to and from school in 16 city owned and operated busses. Of the total number of students transported, 1,760 are elementary and 681 are secondary students. This entire operation involves 772 miles per day for 180 school days or 138,960 miles per school year.

HOT LUNCH PROGRAM

The Dover School Lunch Program, under Mr. James Appleby's able direction, continues to operate in a most efficient manner and can be proud of its progressive record. The School Lunch program is mainly concerned with the health of the children. All requirements of the United States Department of Agriculture for a type "A" meal are included daily. The Federal Government donates many food produ its which enables this department to operate as well as it does.

BUILDING IMPROVEMENT - MAINTENANCE

The School Department is responsible for maintaining nine school buildings with a replacement value of $3,-767,575. These buildings involve spaces comprising classrooms, corridors, special rooms, gymnasiums, lavatories and storage rooms that require not only daily cleaning, but weekly "field days" as well as the regular summer cleaning, painting, and repair operation. The custodial staff is to be highly commended for the fine work they are doing — and for their sincere effort in giving our children a clean and healthy atmosphere in which to work — and for protecting the district's investment in its school buildings.

GOVERNMENT SURPLUS

For approximately 24 years, the Federal Government has been donating surplus materials to the public schools of this country.

The Dover School Department has continued to benefit by this program since it was instituted 24 years ago. Since 1955, 1605 different items worth $156,527 have been obtained ranging from four tons of paper to automatic equipment, tools, cafeteria equipment, office furniture and files, machines for use in various sub-departments in the School Department.

APPRECIATION

1. Grateful appreciation is expressed to S. Judson Dunaway and the Dunaway Foundation Trustees on behalf of the faculty and all of the students in the City of Dover for their most magnificent contribution of $134,000, so that the Dover School Department might bring to full realization its plans for a complete athletic plant.

In fact, the whole City of Dover is still thrilling to the wonderful announcement made through Mr. Howard Mitchell, Chairman of the Foundation's Trustees, of the contribution not only to the School Department, but to the Hospital Trustees and the Swimming Pool committee.

This is not the first time that our department has benefited by Mr. Dunaway's thoughtfulness. For just three years ago, the Foundation contributed approximately $5,000 enabling us to match federal funds so that our Science Department could purchase equipment in the sum of $10,000.

Mr. Dunaway can be assured of the eternal gratitude of the youth of our community, now — and in the years ahead.

We will all look forward to having Mr. Dunaway visit us when our splendid new school is completed in the fall of 1967, and especially when our new athletic field complex, the S. Judson Dunaway Field, is in operation.

II. I cannot close this report without an expression of appreciation to: Assistant Superintendent of Schools, Hildred G. Berwick, for her outstanding contribution on the elementary level in teacher relationship, teacher recruitment, and her part in the general improvement of instruction; (2) Mr. George Kay, Business Administrator, for his sizeable contribution to the managing of the business affairs of this office, budget formulation and control. and in the area of school construction.

CONCLUSION

The Dover School Department, in my opinion, continues to receive fine support from the parents and citizens interested in good education.

The Industrial Community has been most helpful in encouraging the Dover Board of Education to plan for the educational future courageously. They have fine representation serving on our Vocational School Advisory committee that surveyed the needs of the community and so helped us plan the course offerings in our new Dover High School.

An exhaustive study carried on for the past three years of our overall school needs for the City of Dover came to completion in December 1965, when the decision was made to hire the Dirsa & Lampron, Architectural Firm of Manchester, New Hampshire to design the new High school. Bids for the new High school were opened on December 17, 1965.

The past year has been a strenuous year what with the school building and planning concern, budget consideration and stimulating challenges provided by Federal Aid from the Office of Economic Opportunity and the Elementary and Secondary Education Act.

However, it has been a good year. The Dover Board of Education as well as the Joint Planning and Building Committee have spent many man hours attempting to establish policies and programs that will ensure that the young people of Dover will receive the best education that we, the people of Dover, can afford. Their approach has been very practical and yet forward looking. They have been most helpful, and their courage and interest in education has been an inspiration to me. As a result of their fine cooperation and support, our achievements are most gratifying. Compressed into this one paragraph is the mere mention of the many hours of work involved this past year in the study of the curriculum, extra-curricular activities, selection of textbooks, insurance protection, athletics, health, lunch program, transportation and the business of solving and deciding innumerable school problems.

Public schools can only be as good as communities want them to be. It is, therefore, most encouraging to receive the support and cooperation we do each year from so many civic, fraternal and lay groups. My sincerest gratitude is extended to everyone who has helped in the school programs in any way.

The Dover School Board and its Administrators have been alert to the economic needs of Dover. With the cooperation of local industry and the local Employment Security Office, the School District has sponsored and administered vocational programs under the National Manpower Development Training Act. Such courses as small electrical repair, oil burner repair, machine shoe stitching have operated. Still another course in shoe cutting is being organized at this time. All these courses are financed completely from Federal funds.

Courses in machine design and carpentry apprenticeship are also being conducted by the School Department.

It is also gratifying to see over 200 busy adults willing to make sacrifices in order to attend some 25 course offerings in avocational interests during the 10-week period our Adult Education Program was in operation. For the community it makes good sense to make maximum use of its educational facilities during the evening hours for the education enrichment of its adult members.

I wish to commend the news media Foster's Daily Democrat, Station WTSN and the Manchester Union Leader for their fine, interesting and enlightening reporting that they provide our School Department activities.

My personal appreciation is expressed to all school principals and teachers whose devotion and dedication to their profession has been outstanding.

State Tax Commission

Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the City of Dover for the fiscal year ended December 31, 1965. In our opinion, the Exhibits included herewith reflect the true financial condition of the City on December 31, 1965, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,
Harold G. Fowler, Director
Division of Municipal Accounting
State Tax Commission

EMPLOYMENT

"NOTICE
Many listings in the "Male" or "Female" columns are not intended to exclude or discourage application from persons of the other sex. Such listings are for the convenience of readers because some occupations are considered more attractive to persons of one sex than the other. Discrimination in employment because of sex is prohibited by the 1964 Federal Civil Rights Act with certain exceptions. Employment agencies and employers covered by the Act must indicate in the advertisement whether or not the listed positions are available to both sexes."

Your Birthday By Stella

FRIDAY, OCTOBER 14—Born today, you are one who believes first of all in service—service to your fellow human beings, and to any cause that underwrites such service. Because of this—and because you are not able to keep your feelings on this matter quiet—you are quite likely to find yourself on the list of every person or organization who desires to do good, and you may thus be inundated with appeals for help. Only take care that you investigate thoroughly any cause before you rush to its aid.

It follows quite naturally that you are a cooperative person both on the employment and the domestic scenes. If a man, you have no feeling against taking over "woman's work" when it is necessary; if a woman, you are not at all averse to helping earn a living for the family. You put your energy and your concentration where it is needed and the question of doing more than your share of "woman's—or man's—work" never comes up.

Because of your material and spiritual generosity, and your basically loving nature, you should make an excellent mate and a fine parent. Your only drawback might be your eagerness to rush to your spouse's aid or your child's assistance long before he or she really needs it—thus robbing them of development of their own. Guard against this.

To find what is in store for you tomorrow, select your birthday and read the corresponding paragraph. Let your birthday star be your daily guide.

Saturday, October 15

LIBRA (Sept. 24-Oct. 23) — It is most important a this time to form friendships with those who can be of service to you in your career. Cultivate the "right" people.

SCORPIO (Oct. 24-Nov. 22)—Your instincts should be remarkably correct just now. Follow your hunches in pursuing your present goals.

SAGITTARIUS (Nov. 23-Dec. 22)—Secure the basic foundations of your career by an invigorating self-study program. Keep advancement always in your mind.

CAPRICORN (Dec. 23-Jan. 20)—Avoid turning over your responsibilities to another temporarily or you may find them taken away from you permanently.

AQUARIUS (Jan. 21-Feb. 19)—You should receive more than encouragement today; you should receive some material support for a new proposal.

PISCES (Feb. 20-Mar. 21)—Congratulations may be in order before this day is out. Put extra effort into your work for the difference between "good" and "excellent."

ARIES (Mar. 22-Apr. 20)— A short trip may result in a change in your life—for the better. Avoid taking newcomers into your confidence for the time being.

TAURUS (Apr. 21-May 21)—Place your trust in business partners if you would have them place their in you. Business — like love—is a two-way street!

GEMINI (May 22-June 21)—The Gemini who is determined to make amends for past errors should have little difficulty in finding a way to do so.

CANCER (June 22-July 23)—The more simply and modestly you make your request, the more likely you are to have it granted. Remember that others can't read your mind.

LEO (July 24-Aug. 23)—Difficulties in the outside world need not hinder your progress in the development of a new idea—and a new way to succeed.

VIRGO (Aug. 24-Sept. 23)—Turn your thoughts inward if you would find the answer to your present dilemma. The cause is least likely to be in others.

QUICK QUIZ

Q—Who were the first reigning British monarchs to visit the United States?

A—King George VI and Queen Elizabeth of Great Britain, who, on June 7, 1939, crossed over onto American soil from Canada at Niagara Falls, N.Y.

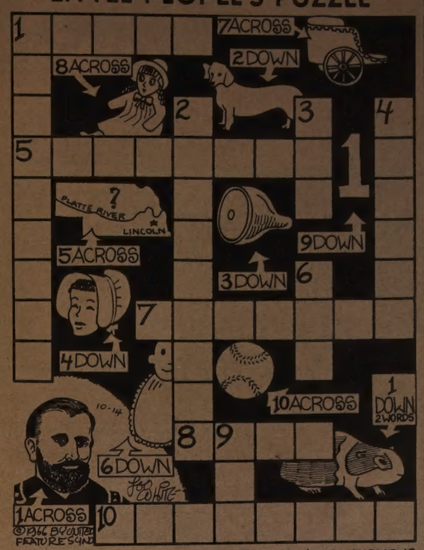
Q—Do bananas have a high food value?

A—The fruit, which is eaten both raw and cooked, contains about 20 per cent of starch and sugar. Pound for pound, it has a greater food value than other common fresh fruits.

Q—Who is called the "Father of the Constitution"?

A—James Madison because of the leading part he took in its formation and adoption.

LITTLE PEOPLE'S PUZZLE



ANSWERS: Across—1. GRANT, 5. NEBRASKA, 7. CHARIOT, 8. DOLL, 10. BASEBALL. Down—1. GUINEA PIG, 2. DACHSHUND, 3. HAM, 4. BONNET, 6. BIB, 9. ONE.

Sally Ann Still Bats A Pretty Eyelash!

By JOAN CROSBY
Newspaper Enterprise Assn.

NEW YORK—(NEA)—Sally Ann Howes is pretty sure her mother is going to be delighted when she sees her daughter in Brigadoon, the 90-minute version of the Lerner and Loewe musical set for Oct. 15 on ABC.

"I have sprung back to the old me," Sally laughed. "For a while my hair was getting blonder and shorter and my eyelashes were getting thicker by the day. My mother said she hoped I would soon be out of my 'Zsa Zsa Gabor' period."

"Well, I'm letting my hair grow, and it's not so blond and I'm getting back to normal. I'm not ready to give up my eyelashes yet, though. I still like them."

Sally Ann Howes, a friendly, irrepressible English actress who has made New York her home since she replaced Julie Andrews in "My Fair Lady," is now deserting New York for Hollywood.

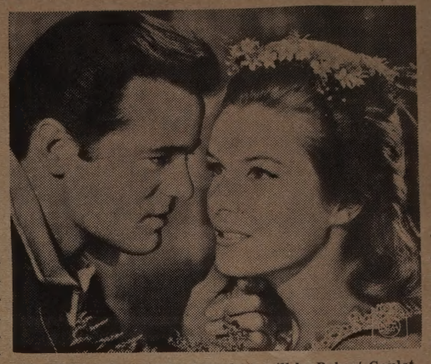
"I have a little apartment in New York that I intend to keep," she said. "But unless you do just stage, there is nothing here. Last year I spent so much time flying back and forth to California that I could have bought a house with my hotel bills."

When Sally signed with Robert Goulet's Rogo Productions to appear opposite him in Brigadoon, she also signed to do a movie with Goulet.

There are two films for which Sally is being discussed. "But I don't want to talk about them," she said, "because I may not get them."

* * *

Glenn Corbett thinks maybe he is the sore thumb of the gang on NBC-TV's The Road West.



TEAMING UP on ABC's Brigadoon will be Robert Goulet and Sally Ann Howes.

Joan Crosby's TV Notebook

Seems his role of Chance Reynolds doesn't quite have an occupation. Glenn thinks it would be more fun if, since he does have an occupation, the character he plays also had one.

The producers are working out something for him, after he complained to the front office. Corbett is not one to be bashful about things that displease him.

The Road West is the third series for Corbett (he was in It's a Man's World and Route 66), which is pretty good for someone who says he never had a burning desire to act.

"I went through the phase most kids do," he said. "I grew up wanting to be Roy Rogers and Wild Bill Elliott. Then I fell in love with Elizabeth Taylor. I read how she loved animals and I captured a chipmunk for her, but I didn't know where to mail it.

"Then I went on to school and the service. After I got out of the service, I got married and my wife supported me by teaching while I attended college. Then one day a friend asked me to join him in a drama class. I wound up in a George Bernard Shaw play. Next came 'The Caine Mutiny Court Martial,' and I wound up getting a top role.

"So I mustered up courage to tell my wife I was quitting school. We sent letters and pictures to 10 agents. Out of the 10, I talked to five and two came to see me in 'Caine Mutiny.'

"I eventually got a screen test. Sam Fuller gave me a job in 'The Crimson Kimono.' He told me he saw the test, but he was going to take a chance, anyway."

Hal Boyle: Petula Clark

By HAL BOYLE

NEW YORK (AP) — It is hard to figure whether Petula Clark was born—or minted.

Every time the teentsy-weentsy strawberry blonde British singer lifts her voice in song she makes echoes in the bank.

She sang first at the age of 7, and a quarter of a century later she has become a one-woman international hit parade. She has sold 25 million records throughout the world, more than any other woman vocalist in history.

"I'd really rather not think about it—it makes me sound like a factory or a sausage machine," said Petula.

"I'm very much interested in the artistic side of music, and leave the rest to others."

Wearying of being called "the English Shirley Temple," Miss Clark moved to France and became an instant success there. A multilinguist, she has had top-selling records in Denmark, Germany, Switzerland, Holland and Italy. During her present three-month night club tour in this country, she also will be featured on variety programs over the three major U.S. television networks.

Petula is pretty, petite and perturbed, but not at all petulant, prissy, or pontifical. She is perturbed by her size. She has big, big voice but she is only 5 feet 2 and weighs only 108. And although she is the mother of two daughters, even in a mink wrap she still looks like a little girl who has lost her teddy bear.

"I have a complex about being so small," she admitted. "I have a feeling that when people meet me, they are disappointed. Because I have a big voice, they expect me to be a big person."

Her husband-manager is Claud Wolff, a French recording executive.

Petula isn't sure just how she should be classified musically.

"My mother was Welsh, and all the Welsh are natural singers. She never had a lesson, but she taught me.

"I don't think of myself as a rock 'n' roll singer. I have a rocking mezzo-soprano voice, I suppose, if there is any way to describe it at all.

"I like to sing modern popular music. But Barbra Streisand is a pop singer, too, and we're not at all alike.

"Trying to put people in little boxes is rather dangerous."

Despite her experience, Petula suffers from "spotlight terror" before each performance, but feels "this nervousness is necessary to me—as a kind of stimulant.

"I am more me on stage sometimes than in real life. It is a marvelous kind of therapy."

TIMELY QUOTES

I've got nothing against men wearing striped pants and black jackets if they want to and they can wear Anthony Eden hats to their heart's content. It's the wearing of striped pants in the soul that I object to, and having a Homburg hat where your heart ought to be.

—*George Brown, Britain's new foreign secretary.*

MRS. RUTH GORDON
755-3707

MEDICAL SOCIETY

Dr. George E. Quinn has been elected President of the Strafford County Medical Society, succeeding Dr. Thomas Smith of Dover.

He spent three years in the USAF World War II as flight surgeon, earning the title of Major.

He has practised 17½ years here and surrounding towns and is well known in New Hampshire for his work in medical hypnosis. He is also President elect of the Frisbie Memorial Hospital in Rochester.

LOCALS

Mr. and Mrs. Fred Auclair have sold their home on the Middleton road and have moved into the Cliff Burno house on Orange street. Mr. Auclair is in the Merchant Marines but is able to be home ten days each month.

Mr. and Mrs. James E. Thayer, Mr. and Mrs. Richard Thayer and Mr. and Mrs. Albert Zino attended the Tri-state telephone convention at Lake Tarleton Club in Pike two days last week.

Lee Richard Russell was home for the weekend from his Navy duties as ceremonial guard at Naval Station in Washington, D.C.

Mr. and Mrs. Francis J. Mooney spent last weekend with their daughter and family Mr. and Mrs. Winston Briggs in Andover, Mass.

Albert Currier Jr. and Earl Skidds were home for the weekend visiting their respective parents. Both boys attend Berkshire Christian College in Lenox, Mass.

Tom Kane manager of the First National Store recently visited Baltimore, Maryland to see the last game of the 1966 World Series.

RUMMAGE SALE

On October 15 St. Peters Church will hold a Rummage slae in the lower Town hall.

Public Forum

To The Editor:
(We the People. Par. 6)
"Do ordain and establish this Constitution for the United States of America." Under our Constitution, the powers are pretty well divided between the state government and the national government.

This was done in order to prevent the federal government from becoming too powerful and take from the people their rights.

To meet this danger, the Constitution calls for a separation of powers.

The national government has three distinct branches, each with its own separate powers and duties, and each branch helps to keep the other two from doing unwise or unjust things. This is why this arrangement is called a system of "checks and balances," as each branch helps to check and balance the powers of the other two branches.

The three branches are, the legislative, which makes the laws, the executive, which carries out the laws; and the judicial which tries cases in court and explains the meaning of the law.

The Constitution tells what action must be taken by national and state governments, as each has its own role to fulfill. It gives rules on how representatives must be elected, what kind of laws may be made for the nation and how they must be enforced.

This nation was once small and weak, but with this Constitution, it has become a very large and might nation, and even more important, it became known as the land of freedom and justice.

As most of us are aware, there are now forces within who are working at tearing apart our Constitution. If they succeed, it will be our own fault, not because we are not aware of it, but because we refuse to inform ourselves. We refuse to take a public stand and let our representatives know about it because we are afraid to be labeled as a radical or a right winger. In other words, we are losing by default. There is too much at stake to simply let it fall. If you are afraid to take a stand for yourself, at least think of your children. What are you leaving them?

Rene Belair
